

Keith Robinson

Senior Fullstack Software Engineer

Phoenix, Arizona | kthrob@gmail.com | 712-490-7823

Profile

Results-driven full-stack engineer with 6+ years of experience building scalable, high-performance web applications. Skilled in modernizing legacy systems, optimizing developer workflows, and delivering user-centric solutions. Proven track record of improving system performance, reducing bugs, and mentoring teams to deliver high-quality software.

Professional Experience

Senior Product Engineer, Promethic Systems, Wilmington, Delaware September 2024 - Present

- Architected and implemented a microservices-based architecture using Node.js, Express, and Docker, resulting in a 30% improvement in system scalability and maintainability.
- Led the migration of legacy systems to modern cloud infrastructure on AWS, reducing operational costs by 20% and improving deployment times by 50%.
- Mentored junior developers and conducted code reviews, fostering a culture of continuous learning and high-quality code standards within the team.

Backend Software Engineer, DTN, Omaha, Nebraska January 2023 - August 2024

- Designed backend architecture for a greenfield energy product, enabling scalable growth.
- Implemented tRPC, reducing integration bugs by ~30 % and accelerating feature delivery.
- Pioneered React Server Components, cutting client bundle size by ~20%.
- Directed migration from NodeJS to Bun, improving build times by ~25%.

Software Developer, CareDx, Inc., Omaha, Nebraska February 2020 - March 2022

- Developed healthcare software on .NET, ensuring HL7/FHIR compliance.
- Modernized legacy .NET app by integrating React components.
- Converted XML configs to YAML, reducing setup errors by ~20%.

Backend Software Engineer, Venley, Los Angeles, California February 2019 - February 2020

- Enhanced Shopify sites with Liquid templates, improving UX.
- Built backend automation workflows, reducing inventory overhead by ~12%.
- Optimized integrations with NoSQL + GraphQL, reducing manual intervention by ~30%.

IT Support Specialist, Riverside Technologies, Inc., North Sioux City, South Dakota January 2017 - September 2018

- Delivered technical support for client networks and systems.
- Spearheaded the transition of hosting from VMs to containers, cutting costs by >20%.
- Proactively resolved performance bottlenecks to improve reliability.
