

KEITH ROBINSON

SENIOR FULLSTACK SOFTWARE ENGINEER

Phoenix, Arizona | kthrob@gmail.com | 712-490-7823 | github.com/kthrob

PROFILE

Results-driven full-stack engineer with 6+ years of experience building scalable, high-performance web applications. Skilled in modernizing legacy systems, optimizing developer workflows, and delivering user-centric solutions. Proven track record of improving system performance, reducing bugs, and mentoring teams to deliver high-quality software.

PROFESSIONAL EXPERIENCE

Senior Product Engineer, Promethic Systems, Wilmington, Delaware September 2024 — Present

Senior Product Engineer at Promethic Systems, driving software development and product innovation.

Architected and implemented a microservices-based architecture using Node.js, Express, and Docker, resulting in a 30% improvement in system scalability and maintainability.

Led the migration of legacy systems to modern cloud infrastructure on AWS, reducing operational costs by 20% and improving deployment times by 50%.

Mentored junior developers and conducted code reviews, fostering a culture of continuous learning and high-quality code standards within the team.

Backend Software Engineer, DTN, Omaha, Nebraska

January 2023 — August 2024

Backend Software Engineer at DTN, driving software development and product innovation.

Designed backend architecture for a greenfield energy product, enabling scalable growth.

Implemented tRPC, reducing integration bugs by ~30 % and accelerating feature delivery.

Pioneered React Server Components, cutting client bundle size by ~20%.

Directed migration from NodeJS to Bun, improving build times by ~25%.

Software Developer, CareDx, Inc., Omaha, Nebraska

February 2020 — March 2022

Software Developer at CareDx, Inc., driving software development and product innovation.

Developed healthcare software on .NET, ensuring HL7/FHIR compliance.

Modernized legacy .NET app by integrating React components.

Converted XML configs to YAML, reducing setup errors by ~20%.

Backend Software Engineer, Venley, Los Angeles, California

February 2019 — February 2020

Backend Software Engineer at Venley, driving software development and product innovation.

Enhanced Shopify sites with Liquid templates, improving UX.

Built backend automation workflows, reducing inventory overhead by ~12%.

Optimized integrations with NoSQL + GraphQL, reducing manual intervention by ~30%.

IT Support Specialist, Riverside Technologies, Inc., North Sioux City, South Dakota January 2017 — September 2018

IT Support Specialist at Riverside Technologies, Inc., driving software development and product innovation.

- Delivered technical support for client networks and systems.
- Spearheaded the transition of hosting from VMs to containers, cutting costs by >20%.
- Proactively resolved performance bottlenecks to improve reliability.

TECHNICAL SKILLS

Ecmascript/Typescript	ReactJS	NodeJS	System Optimization
Docker	JAMstack	PostgreSQL	

EDUCATION

Architectural Engineering in interior design	January 2009 — January 2011
Western Iowa Tech Community College	
Architectural Engineering	January 2004 — January 2006
Iowa State University
